WELCOME!

Dear students,

Bienvenue, welcome, bienvenudo, welcome... at the University of Réunion Island, the only French and European university in the Indian Ocean.

You have chosen an institution known for its international orientation, which is why we attract a growing number of students every year. At the heart of our universities’ culture is the development and expansion of our relations abroad by offering a unique multidisciplinary education and research program.

We are also making a significant contribution to the development of an academic forum for higher education, research and innovation in the Indian Ocean by creating a network of universities supported by the Agence Universitaire de la Francophonie. This gives you the unique opportunity to study in tropical France and gain experience at an institution that is fully committed to serving its students.

In return, with your stay, you will give us the chance to develop the ambassadorial network of our institution. We could not imagine a better radiance abroad! You are the ones who embody our values of openness, excellence and cooperation. And you are the ones who will ultimately make Reunion Island a part of the world through your graduation.

So, for all of us, this is where an exciting voyage of discovery begins. Each and every one of you has an enormous potential not only to gain new experiences yourself, but also to personally inspire teachers, staff or fellow students at this university.

We hope that you will be able to enrich our university with your numerous valuable perspectives and resources during your stay and we wish you, dear students, a successful academic year.

Frédéric Miranville,

**Course of the academic year**

In France, the academic year does not follow the calendar year. Thus, at the UR, the academic year begins in August and ends in July. The year is divided into two semesters: Semester 1 (S1) from August to December and Semester 2 (S2) from January to July.

**Grading system and credits**

In France, assessments are graded on 20 points, 10 being the minimum score to validate an exam. France uses the European credit transfer system (ECTS) to facilitate the comparison and understanding of the courses of studies followed by students from different European countries.

ECTS are accumulated every semester. One semester is equivalent to 30 credits, so one year corresponds to 60 credits, i.e. 1500 to 1800 hours of face-to-face classes (1 credit equals 25 to 30 hours of work).
APPLICATION

Erasmus+ Europe Students
You obtained the green light from your university to come and study at the UR. You will therefore have to complete:

- Our electronic Erasmus application form;
- The Erasmus study contract (mobility kit);
- The university housing application form (if applicable).

The Department of International Relations (DRI) will examine these applications and send you a reply with all the information you need to complete your application:

- The letter of acceptance;
- Link for your administrative registration;
- The documents for your accommodation at the CROUS (depending on the number of places available).

Student on exchange program outside of Europe (ISEP, BCI, PPI, INHA)

ISEP:
You apply directly on the ISEP site that transmits your application to the ISEP coordinator of the UR who carries out the acceptance of the application. Once your application is validated, you will receive a letter of acceptance from ISEP. From there, we register you on the e-candidate platform to proceed to the admission. You then receive a link asking you to validate and complete your account and to attach the requested supporting documents. Once the file has been completed and submitted, you will receive a letter of admission from the UR which will allow you to begin your visa procedures.

BCI:
You should contact your universities’ service responsible for the BCI exchange. You will then have to complete an electronic application form after they have given you a personal access code (all the information on the online application is available on the BCI website). This form must be edited and submitted, along with all the documents required by the BCI file, to your university’s exchange service. Your university will make the first selection and the names of the selected candidates will be sent to the UR. From there, we register you on the e-candidate platform. You will then receive a link asking you to validate and complete your account and to attach the required supporting documents, including the study contract. This document is sent to the RI intermediary (teacher in charge of exchanges in your course of studies) who validates your application. Only once they have validated your application and your file is complete on the e-candidate platform, we will be able to validate your file. If we are able to accept your application, you will receive your letter of admission from the UR which allows you to begin your visa procedures. In case of refusal, your application will be transferred to the universities that you have selected as your 2nd or 3rd choice.

BPI and INHA:
You must apply directly to your university. The University makes a first selection and sends the list of nominated students to the RU. From there, we register you on the e-candidate platform. You will then receive a link asking you to validate and complete your account and to attach the required supporting documents, including the study contract. This document is sent to the RI intermediary (teacher in charge of exchanges in your course of studies) who validates your application. Only once they have validated your application and your file is complete on the e-candidate platform, we will be able to validate your file. If we are able to accept your application, you will receive your letter of admission from the UR which allows you to begin your visa procedures.

Announcement of arrival: as soon as your e-application is complete, an automatic e-mail will be sent to you asking you to complete the "arrival announcement form" if you wish to be met directly at the airport upon your arrival in Reunion Island. The link is the following: http://sondage.univ-reunion.fr/index.php/773385/lang-fr
Accommodation: you place your accommodation request directly on the e-candidate platform. There you will find all the documents to download and complete:
- The housing application form
- The lease contract
- The rules of procedure
- The appendix to the rules of procedure
- The CROUS internet usage charter

Students on exchange program (Europe and outside Europe)
Once you arrive at the UR, you must validate the courses you will take to reach the number of ECTS required for your mobility. For this, you need to consult the “catalogue de formations” on the universities’ website: http://www.univ-reunion.fr/formation/.

Depending on the exchange program and the type of mobility, you may be required to take certain courses. These include courses that improve your knowledge of the French language and contribute to a better understanding of Creole society.

We strongly advise non-French speaking foreign students to follow the courses:
- French as a Foreign Language (FLE): 3 or 4 ECTS
- Theme/Version in English: 4 ECTS (German-speaking students must take the same courses in German-French, for the credits see the course schedule on the website)
- Environment, society and cultures of Reunion Island: 3 ECTS

Find all the details of the courses by following this link: https://www.univ-reunion.fr/international/venir-etudier-a-la-reunion/cours-specifiques-reserves-aux-etudiants-etrangers

Follow this link for a map of the “Car Jaune” network: [https://www.carjaune.re/fr/plan-du-reseau](https://www.carjaune.re/fr/plan-du-reseau)

With the “Réuni’pass Etudiant”, students can freely use all the transport networks of the island previously mentioned. The card costs 50 Euros per year and 20 Euros per semester. You can register online: [https://www.regionreunion.com/aides-services/reuni-pass-etudiant](https://www.regionreunion.com/aides-services/reuni-pass-etudiant).

After receiving the confirmation e-mail, you can pay and collect your card in one of the nine points of sale (Bus stations of Saint-Pierre, Saint-Louis, Saint-Paul, Le Port, Saint-Denis, Saint-André, Saint-Benoît and the points of sale of Saint-Leu and Saint-Joseph). The numerous car rentals on the island are used particularly frequently for excursions into the heights and to reach remote hiking trails.

To rent a car, you must be over 21 years old and have held your driving license for at least one year. Usually a deposit is required that needs to be paid by credit card.

CONCERNING THE INTEGRATION INTO CAMPUS LIFE

**ISRUN - International Students of Reunion Island**

ISRUN is a student association created in September 2017 to welcome international students to Reunion Island. Most of its members have themselves studied abroad in the past. Its objective is to facilitate the academic and social integration of international students at the UR. ISRUN helps with administrative procedures and wishes to bring international students closer to local students and their culture by organizing cultural and historical evenings and trips. The association is also committed to the promotion of international mobility.

**AEMR - Association des Etudiants Malgaches de La Réunion**

The AEMR is a student association founded in 1994 and based in the CROUS next to the University of Reunion Island. The members - all persons without distinctions of origin, gender and convictions - share a common interest: Madagascar. They are guardians of Malagasy culture with the aim of preserving and promoting their identity within the university community. The activities within the association include assistance and advice to new students, various outings and activities to discover Reunion Island, participation in cultural events as well as the organization of a cultural week at the University.

More information: https://www.univ-reunion.fr/international/actions-associatives-envers-les-internationaux/titre-par-defaut

**AECR - Association des Etudiants Comoriens à La Réunion**

The AECR was created in 1994 to present and defend the interests of students of Comorian origin while trying to maintain permanent contacts between students and the Comorian community present on the island. Since its creation, the association has been organizing or participating in various cultural activities (festivals, exhibitions, sports tournaments, conferences) at the University and elsewhere on the island. They are part of the CROUS and work together with the other associations of the University of Reunion Island to improve life on campus.

More information: https://www.univ-reunion.fr/international/actions-associatives-envers-les-internationaux/aecr-association-des-etudiants-comoriens-de-la-reunion

**BRUN’S REUSSIR - Association des Étudiants Africains de l’île de la Réunion**

Brun’s Réussir was founded in 2017 to facilitate the integration of African students and to create an entrepreneurial network on Reunion Island that supports them with all their business-related propositions. It is intercultural, "inter-social" and international.

To kick off the new year 2020/2021, the University of Reunion Island has set up the Buddy System, an online platform that brings together international students and local students.

Would you like some help with your paperwork, your accommodation and job applications? Would you like to discover the local culture and practice the language? Would you like to meet local students?

With the BuddySystem, we will find a Buddy for you who will share his or her knowledge of the local culture. On our website buddysystem.eu, it takes you less than 5 minutes to register by providing basic information about you (home university, age, sex, hobbies, date of arrival and departure, etc.).

Then, the local coordinator of your city will be able to assign you a Buddy (a local student if you are abroad or an international student if you are a local) corresponding to your expectations with the help of our algorithm!

All you have to do is to contact your Buddy, share with him or her the experience of the BuddySystem and follow up on the services and events offered on the Platform!

**STUDENTS “AMBASSADEURS INTERNATIONAUX”**

Our International student ambassadors will support you during your stay, helping you with your first steps on campus to make sure you’re in the best position to discover the life of Reunion Island.
